

First Aid for Schools + AED (FAIB Approved)

Accidents happen all too frequently in class and playground situations and teachers, assistants and other school staff are frequently first on the scene. The presence of trained staff can ensure that Emergency First Aid is given to the casualty swiftly. This can prevent emergency situations becoming major issues whilst giving the best possible care to the casualty. This course includes the Emergency First Aid at Work qualification and is HSE recognised. **Â**

Cost: from Â£445 for up to 12 students on your site

Course length: 1 day

This course is for: Any school staff who have been identified to become Emergency First Aiders or whole groups of teachers to render emergency aid to both staff and students. This course is ideal for staff training days.

Certificate: A 3 year Certificate of Competence (FAIB approved) will be awarded on successful completion of the course and assessment.

For bookings contact: Nigel Sivyer Tel: 01322 666 404, Mobile 07960 937 120, Email info@firstaidcourses.co.uk

Aims

To provide school staff with the knowledge & skills to summon help & give safe, prompt & effective emergency first aid to a casualty (both staff & students) in a school environment following an injury or illness using materials to hand, an AED and/or HSE approved first aid equipment.

Objectives

By the end of this course, the student will be able to:

- State the role of the Emergency First Aider in a school environment
- Carry out a primary survey of a casualty (Adult & Children)
- To place an unconscious casualty into the recovery position
- Carry out effective rescue breathing to current Resuscitation Council guidelines (Adult & Children)
- Use of an AED
- Carry out effective CPR to current Resuscitation Council guidelines (Adult & Children)
- Recognise and deal with Minor & major cases of bleeding (nosebleeds, grazes and head injuries)
- To recognise and treat a patient suffering from medical shock
- Assess and treat a casualty with a broken bone
- Recognise & treat diabetic emergencies, seizures & asthma attacks.
- Open session to include topics relevant to your school

Â
